

PARAMedic⁺

bottle health check service

RECOGNISE

Identification of your bottle to confirm its provenance

RESTORE

Settle, cold stabilise & top-up

REPAIR

Replace cork and reseal

Owner, collector or inheritor of a bottle of Para? Would you like to have your bottle professionally identified, quality checked or reconditioned by a Seppeltsfield winemaker?

Introducing PARAMedic bottle health check. An official service provided by Seppeltsfield to ensure your bottle is to the best standards possible for ongoing cellaring or secondary sale.

PARAMedic process summary

Identification of your bottle including contents, release date and bottling date (if available).

Wine is removed from the bottle and cold stabilised to remove any sediment.

Bottle is cleaned internally and the wine returned.

Wine is topped with a small amount of Tawny material relevant to the bottle presented.

The cork stopper or cork is replaced and foil/neck decoration replaced, matching original style where possible.

Bottle is sealed with an authorised PARAMedic neck label, signed and dated by the inspecting Seppeltsfield winemaker.

Price guide & enquiries

Initial inspection to identify bottle and analyse contents for faults // \$15

Bottle reconditioning - Year Dated Para Liqueur, Bottling Number Para Liqueur, Family Series & Anniversary Para Liqueur // \$20

Bottle reconditioning - 100 Year Old Para Tawny & Centennial Collection // \$100

All inspections and bottle reconditioning complemented with a PARAMedic Bill of Health report.
